I am watching in Netflix a tv show of cooking Big Square_ like a Big Spoon _ fool- They speak about baklavas. I dont want to eat energetically baklava or about a crip or creep that criks. On top of that, I smell whent I touch to my side like some type of lubricant which I havent use or related to since August and it is February 2025- Therefore it is obvius tha tby counterparts with that connection is going backwards or back to that show i nreal time even though it is recorder or life_ and it is a fact-

It is fine to the many but not the the tre of life i am specilly as they put them in an out and then withing they said or thre is a voice that says - whayt is do you like even an British or English woman or because I am in Valencia Spain, I am loosing my English language in exchange of some obstruciton and distress of food — which by the way for the last months or 2 i have been developing a collection which involve a segment related but no related to medical forenxe medicine_ - equehay a collection of aquariums and places as the to restrain an put away_ - Andon top of that my child is sensitive or alegy to nuts and seeds and we eat even energetically what we put in our mouth no what you put so therefero the terraenus ms because at some level it is a way of doiNGs that you would have to eat what you put into:.d you in both singular and plurar.

2025- Therefore it is obvius
ack to that show i nreal time

f life i am specilly as they pu
ays - whayt is do you like ev
r, I am loosing my English la
which by the way for the la
egment related but no relate
iums and places as the to r
