I pull a spear of the fence that was around the church which I noticed a pattern of braking through like Mario and the assistant. The person of both apartments did not put themselves in the toilet to make money - that one did- I walked one day towards the laundry mat. There there were. I walked towards the three or four of them. I took his hand and we spoke. I mention to them how they got into that. The things that are done ones and that still in the body. May the body let that without excuse now and know You that on the way you would run into those peoples and toilets situations- obviously if you are in the middle I wish the same for you therefore better wiser. buy a certificate for toilet put or put to write a book rather than patricios de patricias. Rather you know the ears would be like the neckcracker toy that was left in the corner, may the - marioneta - puppet- May you know Important maybe but not with the fire of someone else.
