Nowadays like when I wrote - The collection me_23 was an appciation like segmetns that puts or develops a light through actions and — — instead of seeing it lke a pilgrimage - like step of before Burgors so before Santiago so that is why said i bend my knes to the Saint while the one that show respect like that an obstruction so they go like that like one show his son in a train museum marked well to go like that.

the object and all of that developed, like when the ax handle broke developed an idea, then happened again and it wa sthe doing how the axes handles developd, the flutes - teh faun or superfaun that yuo gave away- tht like when one plates plays the flute or tought - sents them to war - like palas ateneas so there is a certificate of ++++++ ++++++ .

So About COme TO KNow Me_ which is reformulate along with light before light,... oriignal tittles of processing which the US or WWC or WwHO did not like it because I was becamng a ZB master because also it heals people. It heals with a price then the result gives a new more money in gratitude.. Then the so call comunist. was talking thurgh the massge therapist relation as we were invited to a long weekend- which equals those gratitude gestures- said. Yes, I can give you a ZB and I will like weekend there around x times or so. The tell or ask on advance was no accepted and the joy of a home was taken by someone else. COCO munismo has been developd in the US as it was shown in a video: just in case thing a video would remove that_ so as to learn to from the scarcities that you supported.

So that collection contained 10 or 12 drawings of application of calligraphies alongg with 2 paintings and 2 sculptures_ to germs that someone got in the middle too. A _ there was a destiny of those three paintings as there was an inspiration from the Yellow Flower of to gvie a ZB to the lider of China in a gallery so there was public and the three paintings thre so to be a light as to rise a true momento of resolution of conflicts.

The drawings were as a price of about 12-16,000 dollars -meant to be a way to meet my soul-spiritual lovers from the PorNindustrY like Nancy Ace for example even though I was connected with Anastasia, Others too like Brandy, They know. From there after a year or two it was ment to be reformulated and put together as a new cOlllection with a syntesis of Light-Space and Time. - this last one dealt wih things that develop in on those three aspects of light and took over a year and half. A support and process along with ZB ___ the trash of its fisicality before moving to France and then there___ before the charriot of portraits developed_

COme To know Me_ was made with two waters: it was water and was no just water. Fuji for the Green, Islandic water for the Chinese Stone. I was applying whe ni did taht collection th method of 50. 50 leves, how to save money while making money energetically and tehrefore there was a leap and recuperation of losses_ SO I applied or put away when studying. then used it to pay for the tools. which i cleaned before too the way i cleaned the house or the child room_ so not to become oen of those huses or childrens which they were making of him_ The aplication of the tools made the arT- masks i used for that tinny powder. The police could have ask to know rather than to sent the mand look or leave marks_- People frick out working with that powerful stone_ one i pulisshed an sculpture_ so the artist-monk would have earn a degree or less as probably to learn his own_ the other pulished away like coming or washed of by wters and riverberds_ RiverPearl, the structure by fruitions, etc along it created the self-xcluded by that like the items they made dissapear so like they said so no nmoeny etecs—

Nowadays like I read in a pizza padlor. Masked the thghrough the wife the stealing of it as to recover or to take even more like nothing happened by living with 100 then 40 or 180 which also is an application but the application was 1.000 to take care of those things rather than about the whole money like she cannot do that her self from her own money.
