Hello,

It is difficult to understand your email as I speak Spanish and English fully.

I believe I was during summer 2023 at Camping Rovilleri for a week and spent about 3 months in France.

There I was sleeping in an Airbnb run by an old couple from some ethereal realm. Someone somehow said from the ethereal realm using technology or internet " if you don't take money from the White House we will cut your balls" which as they said and I repeated it would manifest within their lives. I got up and I used 2 rocks and a dry half burnt stick and a rake for the land so I made the place better which at some level I wanted. A symbolic work to get those people out of me that work with the internet. They are bothering people and people that just want me with some women or men that I don't want. My connections to women asked me to put a picture on Instagram so they could have help. I tend to put things on Insta for a little time. Like when I was there something connected me with David de David de Sainte Maxime and I believe France itself. I designed a sculpture for him to work on in public. Also I poked the eye of a book of the ex president of France at a Library. There was a response in my body and I realize it was there and still probably because when I was 17 or so I discovered Carla Bruni and I know they ended up together or something.

Previously, I was hurt physically along with my 7 years old and wife. Because when we got our phone at a store in France. There the assistant working there was given a number from another person and we were and we have been connected with the energy and the doings of them to us – perhaps a recycled number. Two cards phone numbers we got. We met as we moved to Eugene US, an old couple that moved from France. Since then we have been bothered with marks no before or at least no that much. I have to say too that even at an Hotel the card for the elevator did not work until the assistant at the desk came. It was at a nice 4 Stars hotel, by the airport in Bordeaux. With this I hope that mark goes. The name of my wife is Donna M Bouthillier. Previously there was some exchange of information to pay a bill that my wife did. For it I asked for an easy way to do it as we could not figure it out and from our understanding my wife did last October or Sept 2023 from the US. Neither of us understand or want to understand why things are so difficult. My phone even has problems that if I don't use the phone right when I need it for what I need it there is a problem. Even the parking app that I am using now in Valencia, sometimes even Instagram . There are also strange storms in Valencia thunder mixed with fireworks.

For example with regards to it. I have a collection of art. In the payment method I decided that they could do 14,000 USD payments with Zelle to my Chase account. So I could go then to the bank with a series of transactions then there to speak in person with the advisor of what to do no with an hipotesis. To my surprise the amount max on Zelle was lowered to 4,000 or 5,000 USD. Related or not very extrange that was.
