I got the intuition that it needed to hold on - to chck something- and they did.
- 2 Thanksgivings ago I was reorganizing a few new side collections into a one collection and the alarm from Nasa ran into i dont remember if it was in this computer on in the other one. It was a regular but fan meal. kW
- wE celebrated the original meal timing with the mooN. I made a sauce of with pomegranate, sugar, cranberries without the bitterness in it.
