## aBoutExfinity5Gt my collections and they wanted to leave the art in a house where I enjoyed berbeduag pizzag, parties, campfireg, etc. I decided to travel with the art, I found advertising in Sentander and BBVA. I returned on flew back and it was Eugene a place walkable and beautiful town and surroundings. I was lied to a building spartment when in reality I belonged to the small house that they were fixing behind. I met a young woman of my side blond when I went to pick up a tree and ognize each other. I chopped the tree rather than to wait for the spring time, pN a conversation someone was using the 5 G tower with intentions it is my believe related to Duckies or the Oregon team. Those that like to leave marks in the ass and welk like ducks. Hall and I said I dont do anything for them like that thing of disconnecting the internet. Like a connection of earth that does not discharge electricity etc which is just ancestry to that dont like internet etc. Later on idid a tast with a toy our and lishot a dart in an angle of about 45 degrees and it hit the window and stay, I disconnected and did again and it behaved normally. It lift the window and it clid not stick to. I put 2 x in the windows as to mark with the double rhombolds the house at front which relates to the port or adults movies of the 80° as I was processing all residue that I transforme into a vibe of me and than the vibe of the plazas, the dumping of doings from one house to another or the time of holidays thinking and consciously doing. Like I dot smoke and that thing within puts smokes smells etc - the others took alchemical transformations so... -- Front the apartment outside I saw a fatty young man, a dark hairy young woman and a fatty young woman. The man performed and action of sheeting a bullet to the young woman and the other obese laugh. She was walking like a duck. - well good for you if you all do that gain claim your doings. Which by the way I also wrote to the profile that let me there. bEcause I am either a person that means someone was putting that on me- when in reality is that I found a small company to work with so that company would take care of the building situations as they have that set of knowledge and wisdoms, Even when or independently like Amazon could be Amazon/MK as it is written on a note rather than that service of

DESEOS OF WHEN SOMEONE REMAIN AND DID NOT LEAVE SINCE EVEN OVER WORKIG ON A FOREST— SO YOU KYOW THEY AE A ERTIFICATE WTH A BATER TO SPEAK AND WRITE. THE WHITE HOUSE CAN BUY AND THEN RESELL.

THE ONE THAT SUPPOSED TO BUY CAN BUY THE CERTIFICATES ALONG WITH EACH COMPANY LIKE NETFLIX SHOULD BY 10 FOR EXAMPLE, A PUBLISHER ANOTHER 10 PROBABLY FROM TEH WWTC ......
