So like in France I sat on the shade side tabern of a restaurant where the beauties were seating with fellows. After an hour or so of appreciation I wrote a note and gave it to onE only. tHe table is a table so the table should not take the one the invitation was given. Other wise they would be force liek to be both and 1. The elder there did very great plates, the beer was great, the music great. the beauties felt great... a table on the side of dry chicks needed to be on the other place were there was muchedumbre and a couple may have move closer to seat at that table closed to me. So therfore the invitation was given to one and they can ask her and they can hired me or ran into me. I am unusual and i have certain places and at the same tiem i like susuros de lugares y tiempos o el HBH of me as to mention in a dream the web of mine along with a face eve nthough i have been uncovering my future and past which is yours too.
