they themselfs within my human body has said that they dont own me and i don't owe anything to them. The onces taht I wrote to them with a simbol that represents an aspect of the pelvis floor so they can remain within the body and over the fligh or fight response are happy about it about being included in my life and project of life. Alogn with it they themselves has said within that they work less and they earn more so they are better and more efficiente. A different mark of a side / so they know it is not everyone. becauuse of that aspect of flowing loves and relation ships i put this visual picture as all the ocmments are real and from within they were those people escorts which i appreciate but they dont belong to my life they were invited for portraits before they got into the middle: the hook that it was so lk new so they should have known but they reall ygot into the middles and there fore there are still sustances that they use and they said i was getting ready to work there with m own camera when in reality i was designing plazas esculture centes of performances and for the estress of many and the bless of many they are part of the new era. regarless if you like it or not. so they would have an easy time releasing a patern of behavior to the others of the same company and therfore relations of them along with descendances would be part of it. And i relate with pleasure i dont create drama.
