There was one night I performed Halloween with a big stone taken from the cave of a sea lion. Sea lions are were many actors are as they were already without feeling invited. I performed and carved the grass and the land as they take and care about it. There was no custom or decoration only the passion and the Expressionism has like Jack Kerouac Vs Bukowski. I trimmed the sprouts of flowers into a living front yard or back yard because it was no the designed entranced they decided. Were I tree was a branch I reorganized no as to remain in a tree or marked but as to remain covering the back from the back the way you call me and I waited for one of you to come and get me. YoU can always come from the back to get me as i know from the back your bodies respond to me.
