## CERTIFICATE OF DURIAS

Know that I hear my son calling me papa from a distant child and family of people that one one sit with them. They were invited. One red head, one big fat young man, one child. The child of them said papa but it was my own son saying papa. Like I expressed myself to that man but not to that man. Then In Valencia I hear letters and I hear something dumping every time a moment of joy or warm love of humanity came. I am going to make sure and I am sure that youuuu are going to suffer all of it neither life or dead you would find rest for the times and times to be. By the effects on earth and humans one would know and we would know and you you know it is no to find peace with what you all did for many years.

Obviously.
