Once upon a time I wrote in a private message to a friend that i was at the blister of the planet. I was in NY. ONce uppon a time I spoke to an English couple that even the President of the US would have to take the shoes off if they wanted to get into the apartment tht I built. Rather than one drunk English old constructor man with an middle age musician both reiki 2 matert 2 : they decided . I gave a change a mark on the forehead i said no bother me and they thid with thouse things i drank man came down or up the staris from the fire department purpose to try to brake through i got up after they broke a plant i shake him with the knife an the phone: 1.5 yeas and halfs because famous black women or whites whanted me to use to conquer either the whites or the black liek a piano. tHere fore i tell you now that new york is or was at that time ablister becasue they did wherever so it is normal that natural ocuring circunstances occurrs speiall yhen they transfer from one iland to the other therefore:

like the doctor said--

there was a penny from the transcition between words that recognized status before- like knowledg did you go to India or Morroco.¿ the way i did or did you experienced what i did sais the winds of muscis or wlaks:
