CERTIFICATE OF PENALTIES AND COMPLAINTS

at some point i had the car parked on a street in Moulès. I did that said from within and managed to bring someone to put a ticket because one decided hta he does not care about leaving the car there park for a couple of days in an area that is very difficult ot find a car and on top of that had other things to do. On top of hat ir relates to someone that does not want to get found or return what they stole eveyr year. And on top of that to some aspect that they did not let go of as they were using it like when I was in Seville and I was student I was saving money so a few euros counted even though may have no being the best decision it is what it was an nowadays i rather go to the areas I like to park and to if I see a parkign spot in white without telling some one eys other wise it is often that i pass the parking spot. from now own that actio nwold not be needed.

And there is someting else they were passign the wisdom and experiences of walking and driving for since August in Valencia and now is Nov. 16 to other people. Most like liek their bodies would be like a 4 wheels car. So like every day a new day and everyone a part from one as to be a solitari artist or man . while who knows what they were putting on the belly of others and then to oNe self like he managed to pull himselb f away.
