they love me yes and that is dividing the family and going against life even the simples path.

1- to the side of the walkside towards teh walk i moved so the movementen of otehrrs did not interfere

2- At a moment a girl in a foster home taht i worked as diem when conflict arrised or were created. a girl decided to go to see her therapist because the head counselor did not allow. So she went. The paramedics came and I drove with them. We arrived to the school where she stopped to speak with the guardians there. There were about 8 - maybe 6 but emotionally like 12 big men wanting to take her to the hospital. I walk and touch her on the forearm to ask if she wanted to go there. She looked at me and she said no. SO we walked home and everyone else left. To the fosterhome. As we walk she said what the problem was and she said that she was abuse at home and since then no man has touch her. SO I asked if she felt and she said no. Later we sat at the backyard and we spoke. I mentioned to her a story of one thing that i noticed once. She said i was cool. Next morning she woke up and her room was organize and she took a step on her life.

2a in an exercise of calligraphy with the names behind the boss said this child is very violent then i turned the paper and it was the counselor that was taking care of them at night. They took the keyboard of a child so there was more time more hours or how knows.

2b when the revision came they chose a woman for the whole time and me with the per diem position and said well I live i nNY I am not on a hook. I wrote a document of about 20 pages on how to use all in a way that did not conflict the drug industry as they said we get our money from the drug industry to deal with the syptoms no to heal . so like I said. SO i moved on a nd probably the ygot some inspiration.

Bushwick

3. A situation whe n I travelled to Morroco and I healed a woman that was abuse rather than a party to discharge. There was nothing to discharge. So she healed and she had a new set of creativity next morning. She said and in a way it is not taht if you left a mark of sexual arrasement you are those that said well like that that did as he or they left the marks behind in exchange of other benefiths or that a guilty person that is wha would do and so it was the one that still is on the body and so you all know is becasue he does not support either the 9/11 resolution of conflicths or the WWTC Reiki channel of COrna or Vitae. Or that one did not wanted to pay any money to the reiki change and that one healed himself wit hthe ehlp of a woman but it was not her reiki it was universal energy onee went to the dorctor and the doctor said i dont know how you did taht but keep doing it because you are heal. obviously as you did not like it that so you get talt that so as you know and said train not to sleep or speka or to fuck woman standing so they dont realize one is stealing energy or vitality and there forre tothe other performance centers that one visited in EEUU and the Masonic temple in Eureka.

22% waht did that high high sphere took so they dont know ¿¿ and what they left behind they take and they can be like tht withing their living town near by.
