

CERTIFICATE OF AUTHORITIES AND DUES

To J and Husband.

I was at a store working. I think I mentioned to a coworker that there was been a book introduction and mentioned he is family - distant family but still- In relation to the celebration of the wedding we selected the people that would have been thankful to created our tree of life. So there would be release and some ancestry by default would have been easier rather than hanging onto frustration to make things happen. I spoke once at the University it was about that over time the slavery that travelled to new lands looking for a different type of slavery so like myself I free myself when in a poverty family in the middle of Europe an artist stop by and saw the skills and aptitude so I left with him so there was food for the family. It happens that she was my mother back then and she has been treating me like a baby, if it was a baby ~~tht~~ grows up....

So they travelled to distant lands and like the Catholic queen and king in love with Cristobal Colon of a man of adventure that relay on observation. Then they arrived and they said that the land there was no of slavery because it was land of Castilla. So they new arrived. There they said that if they ~~don't~~ take the bible they would burnt their feet. Or they gave them the Bible and they took the land - This also means that if it was the original written they would have separated from the circle of poverty so attached to the earth related to the amazon and viceversa. ON time it developed the Nazi ~~germany~~ as a response over time. So do you understand ~~buckleck~~. Then I was working at a bakery where there was a lot of black people coming for their ~~wonderfull~~ cookies. There i met one and said when the time comes. I was with the ~~mexican~~ boss laughing about me being behind about 2 cookies. I said it is about the point of view. May you stand on a cage to match my high? He did and he got it right.

To another fellow there as we were having lunch. He shared a dreamed situation. and so you know to mention someone allows a degree of solution. So he was at church..... and I said and We came we gave you the Bible and we took the land . A way of talking . A pricing tongue that provokes a reaction. hat transform a movement or colloquial term transformed in an action into a fact to them and only me like. Soon and during ~~tht~~ time as the universal energy activated o the hands a vibe of light started to. like anyone that cooks with the hands if anything projects is suppose to be. So at night there was always many many many black people to come to gave me thank you because so you know in other ways the only way is to return to Africa an to start from the ~~begining~~. ~~Tht~~ is why any of you understand that the bodies has been doing things like once in France I was eating enjoying the grapes and gave the body and to me the pleasure of standing on ~~terrordales~~ and the other aspect of the body because ~~france~~ came and blew the castle before they left they wanted to blew away life so ~~tht~~ body is sold within those histories that contains a fragment or fractal of what the brave very brave of the US blue with a bomb to ~~th~~ Red Sea. And to other to end their personal histories and wished within their written. SO you know if someone ~~ws~~ protecting a criminal like Morgan and who ever used and had a protector call Nora Jones obviously the best is to deplete the protector if the protector ~~don't~~ react to his doings. The relation with her finished when the relation with E finished so she may remain with her which is the one that used the inspiration with the music beautifully rather than of that thing and one may think that if she was a protector of them now is not.

sepan que todavía dicen one is fine for that kind of woman o que uno esta bien asi para ese tipo de mujer mientras vosotros voláis voláis a mujeres violais a mujeres lo cual los síntomas y acedurias en vuestros cuerpos ellas son conscientes y se acumulan en las mujeres que ya eran gordas para que sean ellas las que lleven el karma de las acedurias conscientes de los hombres que desde dentro saben que deben estar con mujeres gordas en lugar de deshonrarlas o cobrar venganza a las mujeres blancas cuando son las mujeres de color tambien las que no quieren a los negros. por lo menos la mayoría de ellos.
