There was a brake, before I was talking and someone thought i was going to full up taht with didgnity . orrect yourself. Asi so as i spoke of energeticys that i perceived in another center i was doing a selection, noticing how that from within the light person, the perfomrances, the miss AMerica,... i observed diffeent aspect on real time . teh hastrals proyections the image in different forms, etc my own perfomance within or withou the performance the different meanings converging etcs and removed myself before the steps began. you know like when there is a country wihtin a country so i tremoved myself and let the steps do_ i did took advance of that moment of a brake on the stage checking phone to check my phone too. —At a chair i did with a cord, at a bed too, a bed i broke- they were giving the skills to even a charriot to- at a bench in France i put through a sword of wood. so you kow i knew also at a gallery ientered with the wood toy sword on the back the conversation of me to a banker they took and they left the drama behind like i have to go to anld like i have that with me. So you know but yu dont know so you all kknw but you dont know_like a dear my dear there is a collection to buy, a table to make, a new collection to do, a trace to take that said i woudl not do that anymore__ which france is taking too, russia too, germanny too others too and may you splain clearly why you would do taht but not that. or that grace de bujias de injeciton de injectors the ovvioulsy i see a lot of pu on the streets becasue there are many dogs and that thing from the US is within them telling that it should be the tax money that cleans that pu. Like some presences i dont stop on and others looves it. what did you said hat a child would no go to play at the plazas. waht were you doign with the pleasure of life making plastic instead and putting things ofs. A host wanted me, the reason is known. and they just find me on places i go and they express their wishes. are they tired of creating cirgunstances?? SO to go and be or do_- And so it happened to be that i observe movements of what exist and can or cannot then last fall a process of staring plazas started. The more the wish for taht the more offuscated or ins they get and they are good infanteria i would sai and there is a trace of life that is going to clear beautifully. . May you remeber the resolution of a conflict in NY ti which i pull different forces up and it was a Metro Subway resolution of forces but the othr resolution wa a mayor reveng and that has all forces on and in and out___ if life in conjunction decided that resolution of nature it decided that.
