**For business**

UT has made itself a name as a forward-looking and innovative institution both locally and internationally. Many of the world’s best universities seek us out as partners, as do global corporations. Cooperate with our researchers to give your company a competitive advantage and an access to high-quality development services.

**For researchers**

UT is Estonia’s leading centre of research and training. UT belongs to the top 1% of the world’s most-cited research institutions in 13 areas. Our researchers cooperate with colleagues from all over the world in various research projects, inter-university agreements, partnership networks etc. and are always open to new collaborations.

**For students**

UT offers a wide variety of international degree and short-term programmes linked to the latest research advances. All programmes include entrepreneurship courses that educate and empower students to launch a career in whatever field ignites their passion. Enrol in one of our programmes and get a head start on your career.
