Preface

On a certain stage the progress slows down or even stops. This year it looks like this moment is near. It is difficult to name new highlights. But this does not mean that speed skating is losing interest in Estonia. Not at all. It looks more like a consolidation of the acquired position in the long track skating world. There was Estonian World Cup participation in the men and in the ladies division. Three men and three ladies participating in the junior World Cup and participation in the European championships allround and sprint, World championships allround and in the World championships for juniors. This is a better result than ever before. There are also more skaters than ever participating abroad.

This year we had the second national championships on the Short Track discipline. Short track is a promising discipline for Estonia. Now it becomes important to organize more competitions in order to create a short track culture. Right now it is only a side step for the long track skaters.

There were only three marathons possible. The Kalevipoja uisumarathon was cancelled twice. The Viljandi rataklub was more lucky. Their Mulgi uisumarathon had already its 7th edition. This time with a winner from Latvia. There was one participant attracting probably more attention, as Kersti Kaljulaid, the president of Estonia, was one of the participants. Also remarkable is the performance of Kuidu Koppel in the Finland Ice marathon. He was winner in the 100 km race.

Leusden, the Netherlands, June 2017.
