Preface

Speedskating in Estonia is growing. Results are improving but also the (media) attention is there. In May 2010 the ISU organized a European speed skating congress in Tallin with a lot of international attention. In November the talent of the year prize was awarded to Saskia Alusalu. The same month Tiit Lääne launched his book "Kiiruisutamine Eestis", about 100 years of speedskating in Estonia.

In January the first competitions were organized in Adavere. In February there was the Estonian championships with the come back of Eerik Idarand. Mart Markus and Saskia Alusalu won their third national allround title. Ants Antson lost here his all time best 500 meter record on Estonian ice. The Kuldne 1500 was cancelled but could be organized two weeks later.

More competitions were cancelled. For the second time there was a marathon competition of four races. Unfortunately two of them were cancelled, due to too much snow. Also the Kalevipoja Uisumaraton was cancelled due to snow problems and therefore bad ice. However, the competitions that could be organized attracted a lot of participants.

In international competitions there was for the third year the possibility to compete in the Junior World Cup. A competition were Saskia Alusalu, Aleks Luik and Risto Liiv participated. Mart Markus had back problems and could not compete but made his debut as a coach. Saskia Alusalu was the only Estonian to compete in the World Junior championships. A remarkable result was achieved by young Marten Liiv. He won the third prize in the final classification in the international youth competition in Collalbo, Italy.

Some figures: This year we had 18 national records, 13 of them by Saskia Alusalu. In the past six years there were already more than 100 national records skated. There were 95 participants in long track competitions in 2010-2011. The season started in Minsk on 24-9-2010 and ended in Heerenveen on 19-3-2011. It was a long season.

Leusden, May 2011.

In 2007 Eerik Idarands' request to represent Latvia was granted by Estonia as well as Latvia. Therefore he was not allowed to represent Estonia anymore and he was also not allowed to participate in the Estonian championships. It was also not possible for him to skate national Estonian records. As a consequence his results of the past three years were not included in the season best lists and not in the all time best lists. However, he never really represented Latvia in international competitions. This season the Estonian Skating Federation accepted him to participate in the national championships again. His appearance in Adavere resulted in a silver medal in the allround competition and a rink record on the 500 meter. He even beat the domestic best ever mark of Ants Antson on that 500 meter. From now on his personal best results and season best results will be included in the statistical part.
