Preface

This season we had some remarkable moments. Sometimes even historical moments. October 12, 2013 was a remarkable date for Estonian speed skating. Saskia Alusalu skated her best 3000 meter. A performance that was just below the ISU qualification limit to participate the World Cup competition, which means she was allowed to compete against the best speed skaters of the world on the fastest ice in the world. In these World Cup races in Calgary and Salt lake City she also skated the qualification limit for the European championships. For the first time since 1939 (Leopold Reivart reached the 19th position) there was an Estonian participant at the European championships. She was even the first Estonian lady ever to participate in the European championships.

Viljandi, January 26th was also a remarkable date. It was the first championship for long distances. There was no 10.000 meter skated in Estonia since 1970. Remarkable too, because this was a 400 meter track, the first one since a long time.

The competition “Kuldne 1500” was a special edition, as it was 50 years ago that Ants Antson won his Olympic Gold medal.

Another remarkable moment was at the national championships. In the men competition 2 x 500m Mart Markus was way to strong for his opponents and won easily. However, in the junior competition it was Marten Liiv who was much faster than Mart Markus was. A remarkable performance indeed.

Also a remarkable moment was in Inzell. World Cup mass start, Saskia finished 10th and scored her first World Cup points.

Already in august we had our first national records, in Minsk, by Mart Markus. We counted records until the last weekend of this skating season.

Leusden, the Netherlands, April 2014.

This is the first time an Estonian long distance championships is organized. Initiated by the Viljandi bicycle club. They had organized skating marathons in the past four years. However this is the first time they organize a long track competition. Timekeeping is in seconds, not in 1/10.

This event was originally planned on January 12th, but at that date there was no ice. The only possible other date was January 26. One week later the ice would be destroyed, as there was a big ice-fishing event. Unfortunately the best skaters were not present, as they were at the junior World Cup in Innsbruck.
