

Volunteer Assignments

Join us as a volunteer at Digit, the leading software conference in Estonia. As a volunteer, you'll play a crucial role in assisting with event logistics, networking with influential individuals, and gaining unparalleled insights into the latest advancements in the digital world. Digit is where developers meet to explore the latest in AI, software engineering, cloud, DevOps, cybersecurity, and emerging technologies—through hands-on learning and conversations with industry experts.

Prepare for an unforgettable opportunity to contribute to an extraordinary conference that inspires and empowers attendees from around the globe.

Stage team

We will have two main stages in Kammivabrik building, and one smaller one in Klubihoone. The stage team's tasks include getting the speakers to the right place on time, keeping the stages on schedule, giving out presents, and making the on-stage magic happen.

Workshops team

The workshops team's members take care of the workshops' program schedule and participants. They assist our workshops area manager so that everything can run smoothly, the rooms are ready, and speakers have everything they need.

Stage summaries

You will have a very special task by collecting keynote insights either before or during the event, so our marketing team can put together the best summaries of the talks.

Production

Although partners are responsible for the biggest constructions, production team members do different preparation tasks in the venue already the day before the event. So you can come help us prepare, then enjoy the event and finish with helping us to take everything down after the event.

Premium Lounge & Dinner

The premium lounge team will be responsible for our VIP attendees. You need to make sure that they have everything needed and organize the things that are missing or need to be refilled. Also, ensure that only those with access to the lounge can get in there. The team will also assist after the event in setting up and taking down the premium dinner.

Food & Coffee Corner

You will be making sure that everything runs smoothly with food providers as well as our coffee corners. This means making sure that during the event the areas are clean, everything is constantly topped up etc, so our guests can feel good throughout the day.

Registration & Information

Registration team members give the first impression of the event, so they have an important role to play. The duties include giving out wristbands and badges after checking their tickets. Our registration will also be our information stand so you'll be able to help attendees in every possible way – finding the right stage, giving advice on which demo box to visit, or when the afterparty starts. Their faith is in your hands. Lastly, sharing information regarding our fun demo area game will also be something you'll get to do.

Wardrobe

The wardrobe team is responsible for making sure our guests can safely and conveniently give and collect their coats and bags when arriving or leaving and rest assured that in the meantime, we're taking care of their personal items. You will welcome guests, organize items efficiently, and help keep the wardrobe area running smoothly throughout the event. Friendly customer service, attention to detail, and staying calm during busy periods are key in this role.

Afterparty

The afterparty team will help ensure that everything for the afterparty is prepared and in place. With your help, we'll also make sure everything runs smoothly during the party, and clean up the party venue afterwards.

If you want to join the team, fill out this [Typeform](#), and let's make Digit happen!
