Company overview

- Founded in 2020 as a trading company with logistics warehouses in Estonian cities Tartu & Pärnu.
- We have 23 years of previous experience in production & sales of profiled boards to 35 countries across the World.
- 2 Production sites in South-Estonia.
- 2 Sawlines and 4 Planinglines.
- Full production cycle starting from roundlogs until finished products.
- Main products Alder, Aspen and Thermo Aspen profiled boards for Sauna and Interior decoration.
- Also Nordic Spruce & Thermo Pine profiles including Claddings, Sidings, Floorings and Deckings.

Alder, Aspen & Thermo Aspen profiled boards

- Premium quality A-grade (A3, 3-sides clear grade) for Sauna and Exclusive Interior Design.
- Alder profiles SHP 28x90mm, STP 15x90mm & STS 15x125mm.
- Aspen profiles SHP 28x42/65/90/120/140mm, STP 15x65/90mm & STS 15x90/120/140mm.
- Thermo Aspen profiles SHP 28x42/65/90/120/140mm, STP 15x65/90mm & STS 15x90/120/140mm.
- Special profiles (STEP, SRP, KYTE) upon request.
- Samples can be sent upon request.

Packaging & Logistics

- All products are bundled & shrinkwrapped for maximum protection.
- All packages are packed on sturdy pallets for safe handling.
- All pallets are covered with protective plastic cover against dust and rain.
- Possible to offer Job-lot packaging for exact project-based volumes.
- We deliver Worldwide, starting from 1 pallet.
- Onsite container loading capability.

Thermotreatment

- Thermotreatment in a state-of-the-art high-pressure computer controlled thermotreatment kiln by WTT Denmark.
- Deeper color, reduced cracking & higher stability due to lower temperatures.
- Thermo Aspen is our main product with 70-80% from total sales.

Nordic Spruce & ThermoPine Profiled Boards

- Nordic Spruce profiled boards from Premium quality rawmaterial.
- ThermoPine profiled boards from selected live-knotted Finland pine.
- Profiles & Sizes according to customer specifications.
- Cladding, Siding, Flooring, Decking, S4S, PAR, PSE etc.
- Our production is flexible, we can adjust according to market & customer needs.
- Packaging options – bundling, shrinkwrapping, barcoding.
- Additional treatments – end-matching, painting
