Course Director's Foreword

Dear course participants, comrades in arms, and fellow

Command Senior Enlisted Leaders,

Welcome to the Command Senior Enlisted Leader's Course 2024!

Welcome to Tartu!

This is the sixth time, since 2019, that we have greeted a new CSELN class. Six years in a row, the Baltic Defence College NATO Accredited Education and Training Facility has fulfilled its commitment not only to the armed forces of the Baltic Sea region but also to the larger enlisted community. It became an unwritten tradition that every time in a course we have 15+ Nations' participants, including NATO members and Allies not only from Europe but from other continents as well. That makes CSELN very multinational and diverse. Tons of diverse experiences and perspectives are being brought in numerous discussions, reflections, and QA sessions. Most lecturers not only deliver a subject, but also interactively engage with the audience, asking their opinion. Therefore, I believe that the experience and expertise of participants and course staff would enrich the learning process and experience for all course participants, staff, and faculty members. I look forward to the opportunity to engage with all of you in meaningful discussions during the upcoming course. Let us make our diversity our strength – let us make it cultural strength of the multinational-NCO's intellect and experience to optimize existing processes and innovate new solutions¹.

Moreover, the year 2024 is solemn to many of us because of a few varied reasons and occasions. CSELN 2024 will be special and remembered because it will take place herewith several important occasions to NATO and EU, to city of Tartu and to BALTDFFCOL. Number of Europe Nations this year is celebrating 20th Anniversary of membership in NATO and EU! The largest enlargement of the European Union, in terms of number of states took place in a year 2004. 10 states have become members of the EU. The same year 7 countries have joined the NATO. The Baltic Way - a peaceful political demonstration this year commemorates its 35th anniversary. Two million people joined hands to form a human chain spanning almost 700 km across the three Baltic states. It was a demonstration of indissoluble *Will* to break free from the Soviet Empire. And these are all important topics to be discussed and analyzed during the course because many strategic level decisions have been made to build a strong, solid, and united Global and Regional economic and security architecture. Moreover, the city of Tartu along with a wide variety of cultural events is welcome to everyone as the 2024 European Capital of Culture! I hope you will have an opportunity to explore local cultural features. And finally, this academic year is remarkable for all of us, as the Baltic Defence College is celebrating its 25th anniversary!

There is no doubt that the increasing diversity of each class's composition had a positive impact on the content and the quality of the CSELN. The content delivers broader and deeper insights into the global security environment from various perspectives. The War in Ukraine, tensions in other regions, recent NATO enlargement and integration of new members, and an increasing number of complex tasks have put pressure on the course agenda to be relevantly adaptable. The fact that this course always fills to capacity reflects and proves that an appropriate high level of curriculum quality has been reached, which we as representatives of the BALTDFFCOL are immensely proud of. The course will provide you with credible and critical knowledge that will let you better understand and support strategic levels commander's intent and translate it into action.

Dear colleagues, congratulations on your selection to this course, once again welcome to BALTDFFCOL NATO Accredited Education and Training Facility, to Tartu, to Estonia and to this part of Baltic Sea region and best wishes for a fruitful and rewarding CSELN 2024!

Command Sergeant Major Alvydas Tamosiunas

Course Director

Baltic Defence College

NATO Accredited Education and Training Facility

¹ NATO NON-COMMISSIONED OFFICER AND JUNIOR OFFICER Bi-STRATEGIC COMMAND EMPLOYMENT AND DEVELOPMENT STRATEGY, ACT/CG/CSEL/22-5424, 19 DEC 2023, p.4.

1.0 About the Baltic Defence College

1.1 Mandate of the Baltic Defence College

The Baltic Defence College (BALTDEFCOL) was founded in 1999 by Estonia, Latvia, and Lithuania with support from their allies and partners. The mandate of the College was set out in the founding document. In 2019, the Baltic States Ministerial Committee approved BALTDEFCOL Development Plan for 2019-2027, which provides political guidance for the development and future operations in the college and sets strategic goals and ways how to achieve them. It ensures that the College remains responsive to the evolving character of academic best practices and remains a Professional Military Education (PME) institution of choice in a strategic environment that is in constant evolution.

The vision for BALTDEFCOL is to be a modern, future-oriented, attractive, competitive, and English-language-based international defence college with both a regional focus and Euro-Atlantic scope. The BALTDEFCOL functions as a PME institution at the operational and strategic levels, applying latest educational principles, effective management, and the most efficient use of intellectual and material resources.

The mission of the college is to educate military and security related civilian personnel of the Framework Nations, allies, and partners while also promoting international cooperation, networking, and contribution to research in security and defence policy to meet the long-term defence and security needs of Estonia, Latvia, and Lithuania.

In July 2022, the NATO Allied Command of Transformation (ACT) granted the BALTDEFCOL unconditional institutional accreditation status. This marks yet another historic milestone in the recognition of BALTDEFCOL's high-quality standards in delivering education and BALTDEFCOL's relevance for NATO and its partners as a NATO accredited Education and Training Facility.

BALTDEFCOL's major geographical scope in educational matters is on:

- The Baltic region;
- The wider Baltic Sea region with particular focus on Russia;
- NATO/EU; and
- The wider NATO/EU area of interest.

As a core program, BALTDEFCOL delivers for Officers two PME courses:

- Higher Command Studies Course (HCSC) – a five-month senior-level course;
- Joint Command and General Staff Course (JCGSC) – a ten-month general staff officer operational level course.

For the mid-level governmental organisations and agencies officials (civil servants):

- Civil Servants' Course (CSC) – an operational level security and defence course.

In addition to its core PME programme, the BALTDEFCOL delivers the following continuing education courses:

- Senior Leaders' Course (SLC) – a one-week course for General/Flag officers and their civilian equivalents.
- Command Senior Enlisted Leaders' Course (CSELC) – a three-month strategic level course for top-level Senior Enlisted Leaders working directly for General/Flag Officers.

1.2 Policy on Equal Treatment and Code of Conduct

In 2019, the BALTDEFCOL implemented its Policy on Equal Treatment. This policy will be introduced and explained to the students at the beginning of the course. The aim of this policy is to ensure a pleasant working environment and learning conditions and protection from unfair and unequal treatment. Mutual trust and a respect for the dignity and rights of all people are important characteristics of this environment, and they are related to the BALTDEFCOL's Code of Conduct, which all members of staff and students are expected to follow. The Code of Conduct contains the following principles:

RESPECT:

- People (listen to everyone)
- The multinational environment
- Students/course participants – as colleagues
- The chain of command:
- Make decisions at the right level
- Show loyalty to decisions

OPENNESS:

- Have no hidden agendas
- Get input before decision
- Talk to -and not about -people

RESPONSIBILITY:

- Be professional – a lifetime learning
- Express your opinion
- Use common sense

HAVE FUN:

- Involve families
- Encourage socialising together

Figure 1: *The Baltic Defence College*

2.0 About the Command Senior Enlisted Leaders' Course

2.1 Outline

In May 2017, the concept of creating a strategically focused CSEL (Command Senior Enlisted Leaders) Course (CSELC) was raised during the Northern Europe Chiefs of Defence Conference in Stockholm. It was agreed that instead of creating the course based on one nation, the project would be handed over to the BALTDEFCOL as a multinational professional military educational institution that has proved its quality throughout its 25 years of existence.

An international working group consisting of representatives from various key regional stakeholders had identified a critical gap in top-level Senior Enlisted Leaders (SEL) education, specifically for those SELs who selected to assignments directly in support of Flag/General Officers. Since the national needs per nation are limited the 1-2 SELs a year, the working group agreed that the BALTDEFCOL, as the most logical and resourceful military educational institution, would take the lead on this CSELC initiative.

The current iteration of the CSELC is the sixth in a row since 2019. It has grown from 13 course participants from 8 nations to a course with more than twenty course participants from more than 15 Nations. Now there are 95 graduates from 22 nations. Such growth indicates the CSELC's necessity as well as its achieved quality. The CSELC 2024 will be held from the 2nd of September to the 27th of November for 12.5 weeks (about 3 months), and delivery is planned to be in a blended mode while combining online studies with two residential periods. From the 2nd of September to the 15th of September, course participants are expected to spend time preparing for residential studies while studying assigned publications and video lectures prior to their arrival. During the time between the two residential periods, course participants devote themselves to preparing for the second residential study block and composing an argumentative essay, which is the most important individual assignment throughout the course.

The educational program will be complemented by one cultural trip, introduction of International Study Trip to Sweden and, at the end of the course, by the Baltic Defence Study Trip, which will visit selected political, diplomatic, and military institutions in Latvia.

2.2 The Aim of the CSELC

The aim of the CSELC is to provide Command Senior Enlisted Leaders with the knowledge that will enable them to advise, support, and enhance strategic level leadership's decision-making process to meet anticipated challenges within a dynamic and complex Baltic Sea Region environment and beyond.

2.3 Learning Outcomes

The delivery of education through the CSELC is organized to achieve learning outcomes that delineate critical fields of knowledge and appropriate skills for the course participants to master.

The curriculum of the CSELC 2024 is designed to produce graduates who can:

1. **Distinguish** contemporary theories of leadership and mission command in the context of the evolving security environment at a strategic level. This course objective is supported and achieved through all educational components, particularly by: Module 1 - Strategic Leadership, Annual Military History Conference, Study Trip – Introducing Estonia, and Argumentative Essay if relevant.
2. **Assess** complex strategic phenomenon, utilizing - where appropriate - the relevant theories or models of strategic leadership. This course objective is supported and achieved through all educational components, particularly Module 1-Strategic Leadership, Annual Military History Conference, International Study Trip, and Argumentative Essay if relevant.
3. **Examine** the impact of resource constraints on Political Planning and Resources Management; This course objective is supported and achieved through all educational components, particularly by: Module 2 - National Security, Baltic Defence Study Trip, and Argumentative Essay if relevant.
4. **Investigate** recent developments in defence policy and planning at the national, regional, and international levels; This course objective is supported and achieved through all educational components, particularly by: Module 2 - National Security, International Study Trip, Baltic Defence Study Trip, and Argumentative Essay if relevant.
5. **Analyze** the significance of the challenges posed by Russia, its strategic allies, and other rising geopolitical powers and challenges, the threats arising from various geopolitical theatres and functional areas and identify their impact on security; This course objective is supported and achieved through all educational components, particularly by: Module 3 - International Security Challenges, Study Trip – Introducing Estonia, International Study Trip, Baltic Defence Study Trip, and Argumentative Essay if relevant.
6. **Describe** the main characteristics of the future warfighting environment, and the concept of Multidimensional Warfare as a framework for future warfare. This course objective is supported and achieved through all educational components, particularly by: Module 3 International Security Challenges, and Argumentative Essay if relevant.

2.4 Admission Requirements

To successfully contribute to the course and to ensure the achievement of the course learning objectives, course participants should:

- Have a rank of OR-9/E-9;
- At a minimum, have a current position at the level of Brigade Command Sergeant Major/Regimental Sergeant Major or equivalent;

- Have a current or next planned position immediately subordinated to General or Flag Officer (GO/FO);
- Have English language skills on the level of 3232 according to the NATO STANAG 6001. At the beginning of the course, the English language placement test will be conducted. Failure to pass the test shall lead to withdrawal from the course.

At the beginning of the course, the BALTDEFCOL will conduct English language verification using the Oxford Online Placement Test:

- The minimum score based on which the test is considered passed is 40.

2.5 Recognition of the CSELC

In designing and implementing the CSELC, the BALTDEFCOL aims to meet the standards and requirements of civilian postgraduate degree programs. However, the CSELC is designed primarily as a senior professional military education course, and it is up to the educational institutions to determine which, if any, module(s) of the CSELC may be accredited towards any academic programs. The value of the CSELC, composed of the individual tasks and group activities, is **17 European Credit Transfer and Accumulation System (ECTS) points**.

All graduates will receive a Diploma Supplement as a constituent of graduation documentation.

3.0 Educational Framework

3.1 Introduction

The CSELC's educational framework is developed to act as a combination of educational approaches, including lectures, panel discussions, seminars, and small group (syndicate) activities and exercises to facilitate adult learning at an advanced level. Consequently, the primary responsibility for learning and achieving the specified learning outcomes is placed on the course participants. To facilitate this, the CSELC and the BALTDEFCOL aim to provide the best possible educational environment for learning. The CSELC is designed to enhance professional knowledge already possessed at the BALTDEFCOL faculty and is bolstered with specific teaching delivered by external sources. As a result, active learning and the full participation and contribution of all course participants is heavily encouraged; this contribution allows course participants to share their knowledge, experience, and learning with one another in an open and positive environment.

In summary, the CSELC is designed for self-motivated and experienced professionals who have the requisite English language skills to engage with their peers and who want to excel during their time in Tartu.

3.2 Educational Charter

The delivery of education at the BALTDEFCOL is guided by an 'Educational Charter,' which includes six principles applicable to both course participants and faculty:

1. **Education is not received but achieved:** as education is the basis of professional and individual self-improvement, course participants are therefore encouraged to devote themselves to their studies, understanding that the effort they put in will be rewarded by what they get out of the educational process.
2. **Minds are not vessels to be filled, but fires to be kindled:** the faculty should not simply provide facts for course participants to learn; through small group learning methods, they should also seek to mentor course participants to help them develop their ability to think for themselves. The objective is not to educate course participants on what to think but rather to show them how to think.
3. **Knowledge is a potent weapon, so arm yourself well:** research facilitates the acquisition and transmission of knowledge. While knowledge is not necessarily power, power can only be wielded effectively with knowledge. Course participants are inspired to research information in support of their own interests and requirements. Equally, the development of education requires continuous research and self-development on the part of the faculty.
4. **Professionalism is the key to education and research:** responsible faculty must be experts in their respective fields, capable of enacting quality management over the educational process, able to maintain excellent educational materials, and ready to devote themselves to their course participants and work.
5. **Assessment should be rigorous and fair:** assessment should be understood and designed as a productive learning experience for course participants, meaning faculty should always endeavor to provide professional, meaningful, and constructive feedback. Meanwhile, course participants should receive this feedback in a positive way, as it is intended to serve as a learning tool to facilitate self-improvement.

6. **Voices should not be raised, arguments should be improved:** in keeping with an ethos of free inquiry and transparency, the BALTDEF COL will always foster an open atmosphere, where faculty and course participants can engage – sometimes even vehemently – in discussion and debate.

3.3 Learning Levels – Bloom's Taxonomy

Like other institutions practicing Professional Military Education, the Baltic Defence College employs a system that incorporates Bloom's taxonomy of learning to provide structure to its educational products. This taxonomy was developed by Dr Benjamin Bloom in 1956 as a way of delineating various aspects of learning. Bloom identified three components of learning, namely the Cognitive (mental), Affective (emotional) and Psychomotor (physical) domains of intelligence, though the cognitive has been by far the most influential. Indeed, Figure 2 depicts the latest revision of 'Bloom's Taxonomy' – by a team of academics led by Dr Lorin Anderson, a student of Bloom, in 2000 – illustrating the cognitive domain progression of learning.

Learning Level	Alternatives	Explanation	Examples
6. Create	Assemble, Formulate, Generate, Modify, Plan	A cognitive process through which elements are linked together or reorganised to form a coherent or functional whole or a new pattern or structure.	<ul style="list-style-type: none"> • Formulate security strategy • Generate a campaign plan • Create defence policy structure
5. Evaluate	Assess, Appraise, Justify, Rank, Validate	A cognitive process whereby theories, concepts, ideas, or phenomena are scrutinised and judged in relation to their relevance or superiority.	<ul style="list-style-type: none"> • Assess the best weapon • Justify a budget • Validate a procedure
4. Analyse	Consider, Contrast, Distinguish, Examine, Investigate	A cognitive process whereby a piece of information is split into its component parts, with each relationship articulated in relation to the others.	<ul style="list-style-type: none"> • Investigate a campaign plan • Distinguish components • Consider problems
3. Apply	Classify, Demonstrate, Employ, Use, Utilise	A cognitive process whereby information is articulated in relation to a particular situation (often to overcome an issue or problem).	<ul style="list-style-type: none"> • Employ a doctrine • Use a field manual • Apply legal protocol
2. Understand	Convert, Describe, Estimate, Explain, Identify	A cognitive process whereby the meaning of various theories, concepts, ideas, or phenomena is obtained and articulated.	<ul style="list-style-type: none"> • Identify analogies • Explain phenomena • Explain historical dates
1. Remember	List, Outline, Recall, Reproduce, State	A cognitive process whereby information – previously discovered – is recalled and articulated.	<ul style="list-style-type: none"> • Outline a policy • Recall a doctrine • List important individuals

Figure 2 Bloom's Updated Taxonomy (adapted from Anderson and Krathwohl, 2001)

Bloom's Updated Taxonomy helps the lecturer to ascertain the correct level students should be capable of achieving in relation to the proposed educational activity. In sum, generally:

- Before a concept can be understood, it must be remembered;
- Before a concept can be applied, it must be understood;
- Before a concept can be analysed, it must be applied (either in practice or theory);
- Before a concept can be evaluated, it must be analysed;
- Before a new concept can be created, other concepts must be remembered, understood, applied, analysed, and evaluated.
- Since then, several attempts have been made to develop a more detailed taxonomy, incorporating several 'levels of knowledge' alongside Bloom's six distinct levels of cognition. These include:
 - **Facts** – Actualities, Data, Events, Objects, Phenomena, Realities, Truths;
 - **Concepts** – Conceptions, Designs, Ideas, Models, Notions, Theories;
 - **Procedures** – Measures, Methods, Practices, Tactics, Techniques;
 - **Processes** – Frameworks, Plans, Policies, Schemes, Strategies;
 - **Principles** – Attitudes, Doctrines, Charters, Ideologies, Philosophies, Rules, Values.

	Remember	Understand	Apply	Analyse	Evaluate	Create
Facts	List	Describe	Classify	Consider	Rank	Assemble
Concepts	Recall	Explain	Use	Differentiate	Assess	Modify
Procedures	Reproduce	Identify	Employ	Examine	Validate	Plan
Processes	Outline	Estimate	Utilise	Investigate	Justify	Formulate
Principles	State	Convert	Demonstrate	Distinguish	Appraise	Generate

Figure 3 Levels of Knowledge Integrated with Bloom's Updated Taxonomy

The Baltic Defence College integrates these levels of knowledge with Bloom's Updated Taxonomy to better help define which keywords should be used in the generation of Learning Outcomes, i.e., those statements relating to what students should be able to do after completing a course or module (Figure 3).

The CSELIC utilises these learning levels in the identification of learning outcomes, which are deemed necessary both for the course and for its modules. In keeping with the Course's educational philosophy and the character of the students attending the course, a substantial portion of teaching is provided between cognition levels four and six.

3.4 Course Documents

The key documents of the CSELIC, which cover all aspects related to the course and the curriculum, consist of the Course Plan, module guides, and Weekly Timetables. Course participants should also be familiar with the BALTDEFCOL Regulations, which describe the mission, rules, and norms of the BALTDEFCOL.

a. Course Plan

The CSELIC Course Plan provides an overview – down to the modular level – of the entire curriculum.

b. Module Guides

A module guide will be assigned for each module of the CSELC curriculum. Published electronically, these guides describe the curriculum down to the level of single lectures or other classroom activities. They are the most detailed description of the curriculum content and are designed to be:

- Reference documents for the course participant, outlining what will be taught, how to prepare for it, and the relevant reading material;
- Guidance documents for faculty in the preparation of lectures.

Module guides will be issued throughout the course before the start of each Module. Each will contain the following information:

- Module Overview: Aim, Learning Outcomes;
- Module Content by event;
- Assignments and Assessment;
- Preparatory Reading;
- Supplementary Reading.

c. Weekly Timetable

The Timetable provides a weekly overview of lectures, group activities, and other events related to the CSELC. This Timetable, issued at least two weeks in advance of each week, is subject to the change, might be amended, and reissued, as necessary. CSELC extracurricular activities may include formal and informal dinners with guest speakers and visiting mentors, and other academic and recreational activities. Additionally, the 'Introducing Estonia' trip is scheduled as a component of the extracurricular activities.

3.5 Educational Components

The Baltic Defence College has chosen to follow the Bologna Process, which was initiated within the European Higher Education Area to standardise the duration of European educational courses and assessment procedures to facilitate easy transfer of qualifications between academic institutions. In Estonia, 26 hours corresponds to 1 ECTS credit. The JCGSC includes 72 ECTS credit points in total. The time allocated should enable the average student to pass each module – and therefore, the course – but those students seeking to gain the highest grades should expect the need to put in more time and effort. Each week, an average of 44 hours of study time is allocated, which is typically divided into two basic formats:

1. **Contact Hours (CH):** within the curriculum, this includes the time spent in lectures, syndicate activities, exercises, and study trips, during which students are expected to be integrated with faculty or acting under the direct supervision of faculty. Lectures, plenary discussions, and syndicate work via e-learning methods are counted as CH:
 - a. **Conferences** provide opportunities to share scientific knowledge and in-depth expertise on a specific topic. Students will be provided an opportunity to participate in such events, including the Annual Conference on Russia 2025 and the Annual Conference on Baltic Military History 2024 (mandatory), organised by the BALTDEFCOL.
 - b. **Exam:** an assessment intended to measure the test-taker's knowledge and analytical skills. An exam can take place in many forms (e.g., written, oral, online tests, or an open book exam). Written exams have a variety of formats, including short answers, long answers, multiple-choice, or a combined approach.

- c. **Exercises** are (the military) analysis of a situation coupled with a role-based interactive application of previously covered curriculum material within a formatted, simulated scenario. Exercises are conducted to allow students to apply the theories and concepts studied throughout the curriculum and demonstrate leadership and other qualities and capabilities. All exercises are well connected to the relevant learning outcomes and are a major aspect of the educational experience during the course.
 - d. **Extra Curriculum Activities** involve high-level visitors or distinguished guests who will deliver a lecture for all the courses present and the faculty, providing an opportunity to be updated on contemporary issues or gain unique personal and professional insights. These types of activities are often not planned and thus require adjustments in the course schedule and weekly plans.
 - e. **Lectures** is a presentation on the topic or curriculum material delivered by a faculty member or guest speaker. Lectures are one of the ways through which adult education is provided, allowing all students to congregate with an expert – either a member of the faculty or a guest speaker – who presents a topic to stimulate students' thinking and convey key facts, experiences, or ideas whilst simultaneously drawing students into debate and discussion.
 - f. **Plenary Discussions** are group discussions or syndicate presentations moderated by either a member of the faculty or a guest speaker. Plenary discussions may take place after the lecture or as syndicate work presentations.
 - g. **Seminars** are organised by the faculty or students. They usually consist of group discussions chaired by an assigned faculty member and may also be structured around briefings, presentations, or preliminary readings. This method facilitates the exchange of views, trains analytical skills and critical thinking, and fosters an ability to reflect on given subject area.
 - h. **Study Trips** are collective visits to institutions, organisations, and agencies outside of the BALTDEFCOL. As such, they constitute an essential and integral part of the CSELIC and are planned to meet the relevant learning outcomes for selected modules. These trips provide students with an excellent opportunity to meet national, regional, and global practitioners in the environment in which decisions are made, allowing students to obtain first-hand knowledge of Allied, European, and national policies, as well as armed forces and cultural values.
 - i. **Supervision** is the key means for students to complete selected written assignments through regular meetings with a supervisor. It is vital to note that the role of the supervisor is not to write a student's assignment for them but rather to offer critical feedback and advice on drafts of their paper, which can then be used to make improvements and amendments to future versions.
 - j. **Syndicate Work/Activities** allow students to develop and present briefings on topics to one another. The students are divided into syndicates. Syndicate activities consist of a preparatory reading, a presentation, and a discussion. These discussions are intended to encourage students to consider course material at a higher cognitive level.
2. **Individual Preparation Hours (IPH):** time allocated for individual study and research, preparation for syndicate activities, and reflection, as well as work on assignments. When the IPH is foreseen beyond the daily schedule, students should plan to spend, on average, three hours from Monday-Thursday engaged in such activities as well as five hours over the weekends.
 - a. **Individual Research Project** is a work of individual research carried out by a student on a topic related to the course curriculum, which consists of required reading, tutoring, a written paper, and a presentation. During the course, students will be tasked to produce a research paper (up to 5000 words) involving detailed research and applying academic standards.

- b. **Preparatory Readings** are **mandatory** readings to be completed in advance for educational activities. Preparatory readings are intended to provide students with a broad overview of the topics identified to reach the learning outcomes specified.
 - c. **Supplementary Readings** are supplied to **support** each educational activity, providing additional insight into certain aspects of the curriculum. The complete list of supplementary reading material will often be well more than that which can be reviewed in the time available. Students will thus have to make choices as to what they consider of greatest value to their personal goals and interests.
3. **Additional educational components, methods, and assignments - individual or group activity:**
- a. **Advanced Distributed Learning (ADL)** – An educational or training course delivered over a computer network using a standard web browser.
 - b. **Case study:** a researched and detailed analysis of a historic or current event, battle, campaign, or other real-life situation for the purpose of applying gained knowledge or reinforcing previously covered material. It allows learners to participate actively following the guidance of an instructor in applying the concepts or principles under study and to foster problem-solving, higher-level learning, and respect for other opinions.
 - c. **E-Learning** – all structured educational activities, such as ADL and video lectures, that are delivered electronically through a computer or other devices.
 - d. **Argumentative Essay:** a written work on a specific topic that includes the author's own personal assessment based on arguments drawn on individual research; the four main types of essays are narrative, descriptive, expository, and argumentative.
 - e. **Online test:** a domain of e-learning aimed at assessing the learner's knowledge on a given topic using online means.
 - f. **Presentation:** a formal speech aiming to describe or explain a specific subject to a group of people. There are different formats and aims for presentations (e.g., informative or persuasive). At the college, presentations are usually the result of an individual or a group assignment and often represent the findings of discussions or solutions to given problems.
 - g. **Quiz:** a short test on a particular subject. A quiz could also be conducted in the form of a competition between individuals or teams.
 - h. **Staff Paper:** a short and focused paper often produced in military organisations that follows a predefined structure. It serves two functions: to impart information and to obtain direction. To achieve such a purpose, a staff paper must present facts and be unambiguous, concise, and direct in its style so that the reader can easily understand it.

4.0 Organization of the CSELCL

4.1 Faculty Organization

a. Course Director

The Course Director is directly accountable to the Commandant for the development, planning, and execution of the course and its Study Modules. The Course Director is assisted by the Dean, Curriculum Developer, Senior Mentor, External Module Coordinators, (Visiting) Mentors, a Course Secretary, and any other faculty members.

b. External Module Coordinator

External Module Coordinators (EMC) are selected CSELCL graduates from the BALTDEFCOL Framework Nations of Estonia, Latvia, and Lithuania. They are responsible for developing, planning, and conducting educational modules for the CSELCL. During the Final Planning workshop for EMCs in mid AUG, the Course Director transfers all status of agreements, contacts, and data of briefers / guest speakers to EMCs. It becomes the final practical preparatory stage to deliver module. EMCs will contact briefers / guest speakers for final coordination, will remind goals, expectation, duration, other practicalities. EMCs oversee his / her module content in ILIAS to be up to date, upload briefers / guest speakers' material. Each EMC in the beginning of module introduces his / her module to class, highlights curriculum flow, tasks, goals, key events. Each EMC at the end of module wraps up and summarizes it. They are responsible for the liaison with, use of, and administration matters related to external support, e.g., Visiting Mentors, Guest Speakers, the International Study Trip, or the Baltic Defence Study Trip, etc.

c. CSELCL Senior Mentor and Visiting Mentors

The CSELCL Senior Mentor is a CSELCL graduate, preferably former External Module Coordinator, whose primary task is related to the facilitation of active adult learning methods while injecting his or her practical experience, guiding discussions, and advising the course participants in achieving their learning objectives. He or she oversees the learning-teaching process and provides feedback to the External Module Coordinators and Course Director. Additionally, he or she offers mentoring and feedback to the course participants and facilitates syndicate activities. Moreover, the Senior Mentor is a member of the Argumentative Essay Presentation Board. The goal is to provide course participants with realistic feedback and discussion from the perspective of a General/Flag Officers' level command team. He or she contributes to the Course Director's Reports based on individual observations within educational processes. Senior mentor oversees that timetables are followed by EMCs and Course participants. Senior mentor in class organizes morning routine sessions, shares administrative updates and advice, when needed makes wrap up of the day.

Visiting Mentors are the Strategic level CSELs posted in respective organizations, who directly contribute to the CSELCL education throughout the course. They provide practical insights based on their experiences and provide advice to the course participants throughout their lectures, group discussions, and syndicate activities at the BALTDEFCOL.

d. Faculty

The faculty consists of civilian and military personnel deployed by the nations or hired directly by the College to plan and implement educational activities and to assess the course participants' assignments. The faculty implements educational activities in their roles as supervisors of argumentative essays, assessors, and lecturers. The Dean, Directors of the Departments, and other College Management Group members are also part of the faculty.

e. Supervisor/Assessor

The Supervisor/Assessor is a BALTDEFCOL faculty member who has been assigned to evaluate and guide the development of the Argumentative Essay. Simultaneously, the same person is responsible for providing documented input to the course participants' Argumentative Essay final assessment form.

In respect of the specific topics, the Course Director could accept an external Subject Matter Expert (SME) as supervisor/assessor. An external SME could be proposed by the nation which has sent a respective course participant, based on the specific area of expertise.

The supervisor can recommend a student for the Academic Writing Award nomination as well.

f. External Assessor

An External Assessor is an external expert or academic responsible for assessing course participants' Argumentative Essays in case of academic misconduct or an appeal initiated by the course participant. In addition, an External Assessor contributes to the process of validating the selection of the best Argumentative Essay(s) for the Academic Writing Award nomination.

g. Course Secretary

The Course Secretary is responsible for all daily secretarial and administrative duties for the CSELCL.

4.2 Course Participants (Students) Organization

a. Class Leader

The course participants will elect one of their peers to act as the Class Leader from their own cohort. In conducting their official duties, the Course Director will delegate authority to the Class Leader regarding their fellow CSELCL course participants.

The Class Leader is the voice of the course participants and represents them in all issues, both educational and those related to life outside the College. He or she will disseminate information to the course participants, collect their views on significant issues, and pass these opinions to the Course Director and faculty members. This includes organizing and conducting the course feedback session at the end of the course.

The Class Leader's responsibilities include, but are not limited to:

- Maintaining direct communication with and takes guidance from the Course Director regarding CSELCL initiatives;
- Disseminating information to CSELCL course participants;
- Acting as the nexus in collecting overall views of the course on significant issues and passing these opinions to the Course Director;
- Organizing the planning and execution of CSELCL social and other events, both inside and outside of the College;
- Organizing the planning and preparation of end-of-course mementos on behalf of CSELCL course participants;
- Organizing a CSELCL feedback briefing at the end of the course.

b. Syndicates

For small group tasks, course participants will be divided into syndicates, which are composed based on every individual group task. Throughout different syndicate activities, the focus is on peer-to-peer learning and organizing tasks without the need for external guidance.

c. Class Assistant

The Course Director will nominate one of the course participants to the role of Class Assistant. The person will guide the course participants about the preparation for the respective day. During the day, the Class Assistant will meet, accompany, introduce, and thank Guest Speakers on behalf of the CSEL. Class Assistant will also be ready to ask in advance prepared a few questions to the Guest Speaker to keep continues discussion while classmates getting ready to ask their questions.

The Class Assistant should also ensure that the classroom is properly prepared before and tidied up after use. Course participants must follow the Class assistance schedule for the CSEL 2024. The sequence is arranged in participant's surnames alphabetical order.

4.3 Course Participants Responsibilities

While in the CSEL, course participants have several responsibilities pertaining to the maintenance of academic rigor and individual propriety. Course participants should:

- Conduct themselves with propriety both at the College and in public places;
- Respect guest speakers, academic faculty, and other course participants in an appropriate manner;
- Act in a scholarly way during class, syndicate, and extracurricular activities;
- Meet with their supervisors regularly;
- Undertake the necessary preparation to fully engage with syndicate activities;
- Ensure compliance with the applicable academic regulations and standards during all assignments.

5.0 Curriculum and Curriculum Flow

5.1 General

The BALTDEFCOL delivers the CSELIC through a Curriculum Flow (see Annex B). Regarding the educational process, a blended learning model is used, including distance learning based on ADL and residential periods. The curriculum is delivered through the modules, which are smaller units of education, lasting one to two weeks.

Module Coordinators are responsible for modules in the CSELIC; they organize and/or facilitate their modules' teaching and with the assessment process. Faculty or Guest Speakers provide education and are assisted by the Course Director, External Module Coordinators, and Visiting Mentors.

The Course and each Module have predefined learning outcomes that are linked with Bloom's taxonomy. These are statements relating to what each course participant *should* know or be able to do at the end of the course or each Module. The assignments of the Modules are designed to test the achievement of these outcomes.

5.2 Study Modules and Supporting Activities

M0	ADL – preparation phase
M1	Strategic Leadership
M2	National Security
M3	International Security Challenges

Modules 1 to 3 encapsulate key learning outcomes, which contribute to meeting the CSELIC-level learning outcomes. This does not mean that each learning outcome – at the specified level of the CSELIC – is mutually exclusive, as the CSELIC utilizes an integrated course outcome design.

The CSELIC comprises one preparatory Advance Distance Learning module and three discrete and sequential core modules containing various curriculum activities. These activities are optimized for residential delivery and are designed to attain the desired level of learning in the applicable subject. The modules are delivered as follows:

Module 0: Advanced Distance Learning (ADL)

Module 0's main aim is to prime Command Senior Enlisted Leaders for the same level of understanding in overarching topics like International Security Challenges, formal writing skills, and critical thinking. Additionally, selected pre-readings for upcoming study modules will be included so that course participants can start to familiarize themselves with issues that will later be covered during the course. For this Module, the BALTDEFCOL online platform ILIAS will be utilized to distribute the relevant online lectures, preparatory and supplementary readings, and to provide the desired outcome for the Argumentative Essay. There are no contact hours during this Module, so the CSELs will complete the mandatory pre-recorded online lectures and familiarize themselves with preparatory readings at their own convenience. The Module can be completed in a manner that will not hinder the course participants' normal routine duty tasks. The estimated time for completion of the Module is 2-3 hours per day, depending on individual reading speed and prior familiarity with the covered subjects.

Module 0 will end with the online test with a summative assessment in an ILIAS environment. Three attempts will be allowed to pass the test.

Learning Outcomes

At the end of this module, course participants should be able to:

1. **Explain** the contemporary International Security Challenges and the principles of Strategic Leadership and National Security.
2. **Describe** the basic principles of critical thinking and academic writing in conjunction with the development of the argumentative essay.

Assignment	Assessment
To pass an online test based on mandatory pre-readings.	Summative - Fail/Pass/Distinction
Credits: 1 ECTS	

Module 1: Strategic Leadership

The aim of Module 1 is to reintroduce Command Senior Enlisted Leaders to the theoretical and conceptual tools necessary to function effectively within a Command Team at the strategic level.

The Module's overall aim is achieved through two mutually reinforcing components. First, it provides course participants with the knowledge required to research and effectively and creatively communicate both verbally and in writing. Second, it enhances course participants' understanding of complex strategic decision-making processes to broaden leadership capabilities.

This Module also provides a basic overview of the key concepts and theories of critical thinking, military theory, strategic communication, and mission command that will be used as practical tools throughout the course. It includes the virtual participation at the Annual Baltic Military History Conference, a Military Theory seminar, and a collective review on the Role of the Joint Operational and Strategic CSEL.

Learning Outcomes

At the end of this module, course participants should be able to:

1. **Distinguish** the significance of the role of a CSEL as a key contributor to the Command Team structure, exploring effective ways to express higher-level ideas and provide options to support, shape, and assist with decision-making at a higher level.
2. **Investigate** frameworks of higher command and the skills required for leadership roles utilized to overcome real world Command Team challenges at the Strategic Level.
3. **Estimate** the impact of various elements that contribute to the success or failure of higher leadership, especially at the Allied or coalition levels.

Assignment	Assessment
Active contribution to the Syndicate activity addressing following topics: 1) CSEL Role in Joint Operational Command Team. 2) CSEL Role in Strategic Command Team. The assignment is related to developing and presenting a commonly agreed and briefed vision related to the focus of the syndicate activity.	Summative - Fail/Pass/Distinction
Credits: 4 ECTS	

International Study Trip

The final stage of the Module 1, the International Study Trip (IST), this year will be conducted in Sweden.

This visit is an integral and important part of the course's curriculum. It occurs in between the Strategic Leadership module and the National Security module and supports our course participants' understanding of the Baltic Sea Region contemporary strategic environment. This is also an opportunity to better understand the roles, functions and responsibilities of a new NATO member and its inputs and roles and security concerns in regional security, and the status of its integration. The visit will give the Swedish Command senior enlisted leader the opportunity to enrich their understanding and integration into the NATO international community, to learn and discuss NATO and allies' Professional Military Education programs.

This study trip supports the learning outcomes of Modules 1 and 2, as it exposes the course participants to Swedish national and Baltic Sea region perspectives on the security environment and regional threats.

For CSELC 2025 IST will be conducted in Finland.

Module 2: National Security

The aim of Module 2 is to survey the key actors, institutions, interactions, and procedures that contribute to the national security system and the elements of national power. The Module begins with a study of the national security system, the elements of national power, and strategic level planning. Later, course participants will study resource management and national security document systems. As an individual task or a team assignment, course participants will prepare and present their respective national security strategy presentations. The presentation is built on the concept of Multidimensional Warfare and is to present the national threat assessment through its prism. This Module concludes with a panel discussion of speakers representing different elements of national power.

The week-long Module is designed so that having studied elements of national power and political-level planning and having received national security briefings from all nations in the course, course participants will be prepared for the next Module, which will be focused on international security challenges.

Learning Outcomes

At the end of this module, course participants should be able to:

1. **Examine** the respective country's national security aims and identify key concepts, processes, and relationships both internally and regionally.
2. **Distinguish** the relationships between respective national security objectives, defence strategies, and military capabilities along with the associated resource constraints.
3. **Consider** the elements of national power that are foundational to national security documents.
4. **Explain** key partner nations' security concerns and challenges and relate them to their respective country's national aims.

Assignment	Assessment
A national security strategy briefing composed and presented individually or in pairs if there is more than one course participant from the same Nation.	Summative - Fail/Pass/Distinction
Credits: 2 ECTS	

Module 3: International Security Challenges

The aim of Module 3 is to identify contemporary trends related to evolution of the international security perspective, lessons learned from current conflicts, and the main trends of the future security environment. The Module's overall aim has following reinforcing components:

First, the Module will provide an overview of the security environment in the Baltic Sea Region, including the Far North as an area directly influencing regional security and current challenges, including Russia's activities and NATO's response to the changing situation. Moreover, tools of power, such as economic pressure, the use of energy, and the cyber domain, and propaganda, are explored. A regional overview will be followed by a global overview, covering major hotspots in Europe, Asia, and Africa.

Following this global overview, the different concepts of Multidimensional Warfare are explained to the course participants. The theoretical overview will be followed by a deeper dive into Space as an element of Multidimensional Warfare. A panel discussion is followed by an exercise that allows the course participants to realize its practical values for the conventional battlespace.

It will be followed by the exercise '*Common Shield*,' which offers course members the opportunity to work on regional analyses of multidomain threats and to develop potential regional countermeasures to confront them. The exercise prelude gives an opportunity to work with different Elements of National Power, national threat assessments, and other aspects of the complex Baltic Sea Regional Security Environment. Hence, the exercise verifies previously covered topics within the course and allows the course members to use the skills of critical thinking and analysis.

Finally, the future security environment and conflicts will be discussed. It includes aspects such as changes in global demographics, urbanization, climatic change and climate refugees, extremism, artificial intelligence, and unmanned high-tech weapon systems. As a result, course members will be able to distinguish potential characteristics of future conflicts, enabling CSELs to effectively advise their strategic level superiors and to familiarize themselves with future challenges in the field of Professional Military Education of the enlisted personnel.

The residential period of the Module ends with Baltic Defence Study Trip (BDST) to Latvia. The graduation to be co-conducted with the BALTDEFCOL Senior Leaders Course in Riga, Latvia.

Learning Outcomes

At the end of this module, course participants should be able to:

1. **Appraise** the significance of the challenges posed by Russia, its strategic allies, and other rising powers and challenges and threats arising from various geopolitical theatres and functional areas, analyzing their impact on the security environment.
2. **Assess** recent developments in defence policy and planning at the bilateral and multilateral levels.
3. **Explain** the perception of the Multidimensional Warfare as a concept to counter and defeat an adversary by joint force in all the domains of a future armed conflict.
4. **Identify** the main characteristics of current and future conflicts, types of warfare, and the utility of armed force in the wider Baltic region and beyond.

Assignment	Assessment
Briefing after SYNA related to Space as an element of Multi-Domain Operations. The practical aspects of the Space	Summative - Fail/Pass/Distinction

capabilities are utilized to solve the tasks given in the exercise scenario.	
Exercise "Common Shield." In groups, a commonly agreed upon priority list of regional multidomain threats and a list of cross regional countermeasures are to be developed and presented.	Summative - Fail/Pass/Distinction
Credits: 5 ECTS	

Argumentative Essay

This assignment allows course participants to employ the principles of critical thinking on a topic related to the future development of the national and/or NATO NCO (Non-Commissioned Officers) corps or to address the strategic aspects of the security environment, security and defence policy, defence strategy, or defence management. The research process is intended to improve course participants' argumentation and self-expression skills through authoring an Argumentative Essay. For the successful completion of the Module, course participants must prepare an Argumentative Essay following BALTDEFCOL academic standards as provided in ILIAS. Argumentative Essays must be completed individually.

The assignment is expected to be in the range of around 3000 words, and it is supervised by selected BALTDEFCOL faculty members or external Subject Matter Experts. Also, course participants will compose an executive summary in a BALTDEFCOL 1 page speaking note for the Presentation Board ahead of AE brief to support their preparations.

Within two working days during Module 3, all the course participants will have the opportunity to present their topic, its importance, the essence of the problem, and potential solution(s)/recommendations. For this purpose, an Argumentative Essay Presentation Board consisting of Course Director, Senior Mentor and BALTDEFCOL 1-2 faculty members will be composed.

While the writing process of the course paper promotes critical thinking, synthesis, and the analytical skills of the course participants, the Argumentative Essay defence in front of the board assesses presentation skills and gives a sense of a realistic multinational strategic level working environment.

Lastly, the chosen topic allows course participants to mention real-life shortcomings in the national or NATO military system and offer potential recommendations and solutions based on their analyses.

The Presentation Board will select the best essay(s), which are the subject of potentially being published in the BALTDEFCOL collection of the best course participant(s) essays in *Ad Securitatem*.

Learning Outcomes

At the end of this module, course participants should be able to:

1. **Assess** contemporary strategic phenomena, utilizing – where appropriate – the relevant strategic theories or models of strategic leadership.
2. **Apply** the academic standards, principles of ethical and critical thinking, and the formal requirements of conducting research.
3. **Present** the key aspects of a strategic level challenge and defend its conclusions and recommendations.

Assignment	Assessment
An Argumentative Essay in Strategic Studies (70% written paper, 10% executive summary/speaking note, and 20% presentation)	Summative - Fail/Pass/Distinction
Credits: 5 ECTS	

Baltic Defence Study Trip

The final stage of the CSELC, the Baltic Defence Study Trip (BDST), this year will be conducted in Latvia.

During the trip throughout Latvia, course participants will interact with security, defence, and communication planners and experts to validate the knowledge obtained during the course, based on the sample of one sovereign nation in the Baltic Sea Region. Within a few days, the course participants will be familiarized with the elements of Latvian national power and its perception of regional security. Also, NATO's response to the Baltics' emerging security situation will be addressed while visiting enhanced Forward Presence (eFP) Latvia.

Finally, course participants will attend the concluding panel session of the Senior Leaders' Course (SLC) dedicated to the General Officers/Flag Officers and attend the joint graduation of the CSELC and the SLC.

This study trip supports the learning outcomes of Modules 2 and 3, as it exposes course participants to national and regional perspectives on the security environment and regional threats.

CSELC 2025 BDST will be conducted in Lithuania.

6.0 Course Participants Assessment System

6.1 Introduction

Assessment is a continuous process intended to support the course participant progress throughout the CSELC and to enable the College to report to participating states on their course participants' performance if required so. The Course Director is responsible for the final assessment of course participants. A Senior Mentor, External Module Coordinators, and Visiting Mentors assist the Course Director in the assessment. The following form of assessment is utilized at the BALTDEFCOL for the CSELC:

	Purpose	Form	Sequence
Diagnostic	To assesses what course participants already know and/or the difficulties they might have, which may limit their engagement in new learning.	Ungraded feedback	Before a module or course.
Formative	To provide feedback during an educational activity or module. To achieve this, course participants may be given the opportunity to complete tasks during modules to assist with their learning, which will always result in feedback.	Ungraded feedback	During a module or course.
Summative	To determine whether course participants have met the prescribed aim and learning outcomes for modules and electives. To achieve this, course participants are required to complete one summative activity – an assignment, sometimes consisting of various components – for each module and elective.	Fail/Pass/Distinction	End of a module or course

Course participants must pass all assignments associated with a particular module to pass the Course. A course participant who for any reason receives a 'Fail' in one or more of the summative assignments will not graduate from the CSELIC but will receive a 'Letter of Attendance.'

6.2 Assessment Process

The procedure for the course participant assessment system consists of two parts. First, all modules, except Introductory Module, include an assignment that will be formally assessed, through a process known as summative assessment. The assessment, together with feedback, is intended to assist the students' development throughout the course and will not be made available to sending states. Summative assessments are intended to formally assess the performance and knowledge of students in relation to the learning outcomes for the different CSELIC modules.

Second, the Course Director and External Module Coordinators will monitor course participant progress and performance throughout the CSELIC and will provide them with personalized informal feedback:

1. **Course Director's Counselling:** time will be scheduled for individual counselling between the Course Director and each course participant during the second residential study block. If deemed necessary, the Course Director can invite a course participant for ad-hoc counselling if the performance of the course participant during the CSELIC so requires.
2. **Diploma and Diploma Supplement:** will be provided to the course participant before graduation.

6.3 Assessment of Academic Ability

The BALTDEFCOL uses an assessment system compatible with the European Credit Transfer and Accumulation System (ECTS). However, the application of the assessment system and the use of the grading depends on each course's requirements and the length of each course.

A summative assessment will be done for every CSELIC module to formally assess course participant performance and knowledge in relation to the modular learning outcomes. CSELIC course participants will receive a summative assessment of assignments by using the Pass/Fail/Distinction criteria. In case of an exceptional Argumentative Essay and follow-on proceedings, the course participant may receive Distinction.

Assignments assessed using Fail/Pass/Pass with Distinction criteria will use grades outlined below:

Grade	Criteria
Pass with Distinction	The course participant shows an outstanding grasp of the subject matter and a broad level of learning outcome achievement. The course participant has exceeded the aim for the Argumentative Essay by displaying an outstanding grasp of the subject matter and an excellent ability to remember, understand, apply, analyze, evaluate, create, and present information.
Pass	The course participant has met most of the module aim by displaying a satisfactory grasp of the subject matter and an attainment of learning outcomes at a satisfactory level.
Fail	The course participant has failed to meet the module aim due to an inadequate grasp of the subject matter and acquired knowledge and skills are below the minimum level.

6.4 Reassessment and Course Participant Appeals

In some cases, course participants might receive a **Fail** for an assignment. Should this occur, they will be given one opportunity to reassess within ten working days. In case of failing to pass the assignment during the reassessment process, an Appeal Board will be convened to determine the final unappealable grade. Based on the Appeal Board's final grade, the Commandant will inform the Sending/Sponsoring Nations of further actions.

If a course participant is dissatisfied with the assessment of a summative assignment, the course participant has the right to appeal their grade but only if they can provide evidence showing why they believe they have been treated irregularly or unfairly. The procedure for course participant appeals is outlined in the *Standard Operating Procedure for Student Assessment*.

6.5 Misconduct

In the case of academic or personal misconduct, course participants may be expelled from the CSELIC and return to their home country in accordance with procedures approved by the Framework Nations and set out in the BALTDEFCOL Regulations.

Should a course participant's general course performance not meet the required level, there are three stages of warning:

- **Level 1 – Course Director's Dialogue:** when the Course Director is made aware that a course participant is not making satisfactory progress or contributing insufficiently to the course, he will discuss it with the respective course participant, informing that his or her progress is below standards and requires a swift improvement.
- **Level 2 – Course Director's Report:** should performance not improve, a report will be compiled by the Course Director and read by the course participant, who will sign it. At this stage, the Course Director will inform the Commandant and the Senior National Representative (SNR) (if appointed).
- **Level 3 – Commandant:** if progress continues to be unsatisfactory, the Commandant may decide that the course participant should be removed from the CSELIC and recommends the Sending Nation that he/she should be withdrawn from the course.

6.6 Graduation Documents

Upon the completion of the course, each CSELIC course participant will receive a Course Diploma and Diploma Supplement.

6.7 Course Participant Awards

The CSELIC has established two awards for course participants:

1. The Commandant's Award to Course Leader (Top Student);
2. Academic Writing Award.

Awarded course participants will be recognized during the Graduation Ceremony.

1. The Commandant's Award to Course Leader (Top Student)

This award recognizes the course participant whom the CSELIC leadership believes has demonstrated the most outstanding overall creativity, insight, rigor, leadership, and comradeship. This course participant will have achieved exceptional academic results in all assignments while showing excellent leadership and

comradeship throughout the course. He or she will also enrich the educational experiences of his or her colleagues, contribute extensively to the course, and reflect the values and expectations of the BALTDEFCOL. The Course Director will nominate a course participant worthy of the Commandant's consideration for the award in close coordination with the Dean and Mentors/ External Module Coordinators.

2. Academic Writing Award

The course participant who demonstrates the highest excellence on the CSELIC for his/her Argumentative Essay and defends it in the best quality in front of the Presentation Board will receive an Academic Award and will be offered the opportunity to publish an Essay in BALTDEFCOL online collection of the best course participants/students' papers '*Ad Securitatem.*'

6.8 CSELIC Notable Alumni page

The Director of the CSELIC is authorized to identify the Notable Alumni and arrange their display on, and if necessary, removal from BALTDEFCOL's web page. The display and removal shall be subject to a reasoned and objective decision and shall include informing of the individual concerned.

For the display of Notable Alumni on BALDEFCOL's web page, the individual will be asked to grant his/her consent (does not apply to the inductees to previous virtual Hall of Fame) and provide an electronic version of the parade portrait (with upper body and decorations visible), latest his/her biography and his/her original quotation on military education promotion preferably in connection with CSELIC.

When identifying the Notable Alumni, the Course Director will consider the following criteria: graduates of the CSELIC who have attained through military merit the highest non-commissioned officer's position in their nation's armed forces, or who have held the equivalent position within NATO Command Structure and/or NATO Force Structure.

7.0 Course Evaluation Process

7.1 General

Curriculum development is a continuous process involving the review of the current course program, the planning and authorship of new or revised material, approval of changes, and the production and distribution of course material.

The BALTDEFCOL will continuously endeavor to improve the curriculum by making it more effective, relevant, agile, and responsive to new challenges.

To develop the course further, evaluation and feedback systems are used. This system involves course participants, faculty, the management group, and others involved in the delivery of education.

7.2 Course Feedback System

Both course participants and the College Leadership (Academic Board) evaluate the CSELIC. The Course Evaluation System consists of four separate elements: Module Feedback, Course Feedback, and an After-Action Evaluation. Given this unique course development procedure, the tri annual International After-Action Review Conference is added to the Course Feedback System.

1. **Module Feedback:** The objective of Module Feedback is to receive immediate feedback from course participants by the respective Module Coordinators and the Course Director on each Module to monitor the learning process, make any necessary adjustments to the ongoing Module, and gather data for the overall evaluation.
2. **Course Feedback:** The objectives of Course Feedback of the course participants is to provide an overall assessment of the course to the members of the College Management Group and to receive recommendations on the areas that need improvement and more attention in the future. The Course Feedback of the course participants consists of two parts – individual feedback submitted by every course participant and subsequent discussion and the preparation of a joint briefing by the CSELC. Members of the College Management Group are to attend the Course Feedback briefing, allowing them to draw Lessons Identified within their respective areas of responsibilities.
3. **After-Action Evaluation: The objective of After-Action Evaluation is to gain course participant views about the CSELC after graduation, focusing on how their participation has met their current position's requirements.** An online questionnaire is sent to CSELC graduates once every three years to support the further development of the CSELC concept in the framework of the BALTDEFCOL tri-annual cycle of Educational Requirements Seminar (ERS).
4. **After Action Review Conference:** This is a forum that brings together representatives of the BALTDEFCOL Framework Nations, the CSELC Founding Nations, NATO entities that have been supporting CSELC development, and other nations sending Course Participants to attend the CSELC. The goal of the event is to summarize the previous period and to seek recommendations about the future course content. The Conference is conducted once in every three years. The next AAR Conference is scheduled to take place at the beginning of 2026.

ANNEX A | Abbreviations

AAR	After Action Review
ACH	Admiral Cowan Hall
ACT	Allied Command Transformation
ADL	Advanced Distance Learning
AE	Argumentative Essay
BALTDEFCOL	Baltic Defence College
BDST	Baltic Defence Study Trip
BDU	Battle Dress Uniform
BWR	Baltic Way Room
CDT	Commandant
CD	Course Director
CH	Contact Hours
CL	Class Leader
CP	Course Plan
CTC	Critical Thinking and Communication
