# DUOX<sup>plus</sup>

by **FERMAX**

## It takes 2 to connect

### 2 wires

A fully digital door entry system that works with 2 non-polarised wires from start to finish in the installation.

### scalable

Up to 10 panels and 10 guard units at the general entrances.  
Up to 10 panels and 10 guard units in each building or block of apartments.  
Up to 100 blocks and sub-blocks.

### user-friendly

Since the system is entirely digital, the type of wiring has much less of an effect on the quality and performance of the system. Furthermore, very few intermediary elements are required, which saves considerable time in the installation.

### intuitive

The DUOX PLUS monitors can be programmed in just a few seconds, directly from the OSD menu.

### no limits

DUOX is designed to work with all kinds of projects; large or small, simple or complex, vertical structures or horizontal installations.

### product range

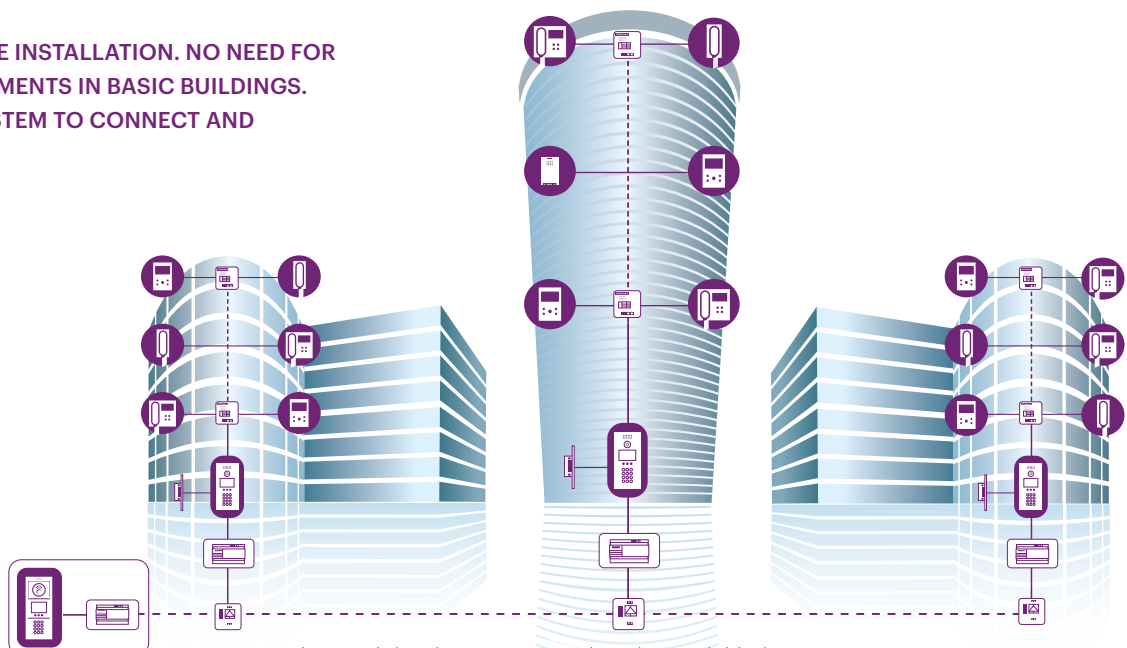

A broad variety of outdoor panels and indoor terminals with an exclusive design and advanced functions, without any increase in price.

### connectivity for everyone

With DUOX PLUS, Fermax can introduce any kind of building or home to the world of connectivity, incorporating mobile call divert into even the most basic monitors.

**EASY AND SIMPLE INSTALLATION. NO NEED FOR ADDITIONAL ELEMENTS IN BASIC BUILDINGS. THE FASTEST SYSTEM TO CONNECT AND PROGRAM.**

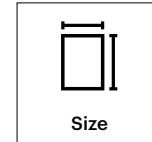

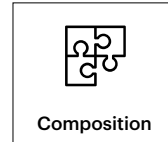

Always simple, long distances in 2 wires and it can be expanded thanks to its accessories.

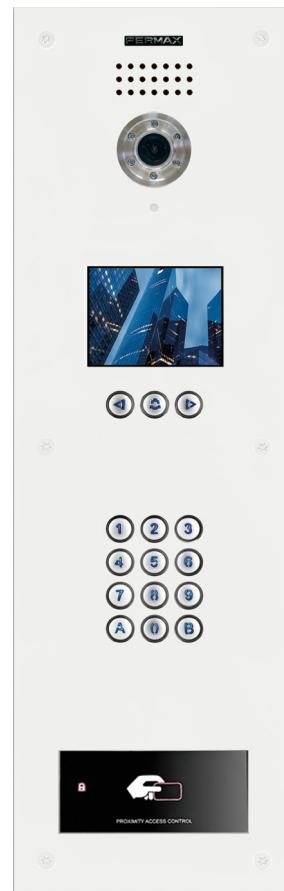

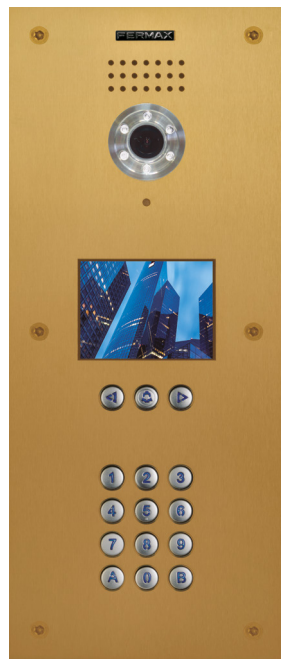

# MARINE *elite*

by FERMAX

WITHIN THE MARINE LINE, THE EXCLUSIVE, BESPOKE RANGE MARINE ELITE ALLOWS A TOTAL FREEDOM OF **IMAGINATION AND CREATIVITY**: ANY COLOUR, SIZE OR COMPOSITION.

RAL 9005

RAL 3020

RAL 5005

GOLD

RAL 9018

RAL 9016

Thanks to the stainless steel with **IP65 IK09** protection, MARINE is a door entry solution **able to resist in corrosive and wet environments**.

MARINE is the **vandal-proof** audio and video door entry panel from FERMAX. It is made of **316L stainless steel** and it has 2,5 mm width.

MARINE is one of the most **resistant** outdoor panels because of its high quality, on both materials and production processes.

Fermax has a **laser-engraving** machining line for marking MARINE panels.

The laser engraving of panels is only available on the panels with stainless steel colour. Other colours cannot be engraved.

For every project, a different **size and composition** depending on the requirements.

**DUOXplus**  
It takes 2 to connect

**DUOX PLUS brings the most powerful 2-wire digital system to your home.**

With DUOX PLUS, Fermax opens up the world of connectivity to any type of building and home, incorporating call forwarding to mobiles phone on even the most basic monitors. Download the free BLUE application and connect to your home.

**MEET**  
FEEL NO LIMITS FERMAX IP

**FERMAX MEET IP technology is a 100% IP system for residential communication.**

The possibility of receiving calls on your mobile phone comes as standard. You just need to have a monitor installed in the property. Download the MEET ME free application and connect up to 8 smartphones from the same apartment. Also, thanks to MEET ME Call Forwarding Licence, you can have this feature in installations with no monitors.

**Kit Way-Fi**

**The KIT WAY-FI gives you TOTAL FREEDOM.**

With Wi-Fi connectivity built into your monitor, you can divert your video door entry system to your smartphone, receive the call, answer and open the door if you want.

No matter where you are, you can always do it your way, the easiest way. Do it your Way when you're away!

**DUOXplus**  
It takes 2 to connect

**DUOX PLUS SKYLINE KITS for 4, 6, 8, 10, 12 units.**

Each kit includes a video door panel, frame, flush box, double push buttons, power supply and line adaptors. You can then add monitors or telephones according to your needs.
