Advanced Research-driven Entrepreneurship: Mentoring Day –Get Valuable Feedback on Your Idea!

November 17th, 2026
Room MEK-011, TalTech Mektory building
(Raja 15, Tallinn)

Do you have an exciting business idea that you would like to develop further? Join our Mentor Day, get inspired, and discuss your idea with experienced business mentors!

The Mentor Day will kick off with a short workshop, **"How to Present Your Idea?"**, where you will learn practical tips on how to communicate your idea clearly, confidently, and convincingly.

After the workshop, you will have the opportunity to meet with business mentors from different fields, present your idea, and receive valuable feedback and practical advice on your next steps.

Why Participate?

- Learn how to present and communicate your idea more effectively.
- Receive practical feedback from experienced business mentors on your idea and its business potential.
- Meet experts from different fields and expand your professional network.
- Discover new opportunities and identify the next steps in developing your idea.

Agenda

13:00–13:15 – Arrival and welcome coffee
13:15–14:15 – Workshop: "How to Present Your Idea?"
14:15–14:30 – Introduction of mentors and meeting arrangements
14:30–16:00 – One-on-one meetings with business mentors
16:00–16:15 – Coffee break
16:15–17:15 – One-on-one meetings with business mentors
17:15–17:30 – Wrap-up and networking

Target group: Researchers, members of research groups, doctoral students, early-stage researchers, etc. who have an idea that needs advice.

Mentor Day is a great opportunity to gain fresh perspectives on your idea and receive expert advice.

To participate a fully developed business plan is not required – all you need is an idea you want to take further.

Workshop is in English, meetings in the language suitable for both parties.

Registration deadline: November the 09th, 2026

I'm aware and give my consent to the following:

1. I participate in a public event that is being photographed and filmed.
2. The images and video materials are used for marketing purposes to promote the project.
3. TalTech uses the data for the purposes of the statistics and feedback from participants, for forwarding information and news.
